

American Board of Ophthalmology Office Record Review Module

Diagnosis/Case: Lower Eyelid Ectropion/Entropion (Surgical Management)

Module Definition: A patient 18 years or older with lower eyelid ectropion/entropion, operated on by you in the past 24 months, and had at least one short-term (within 14 days post-op) and one long-term (90 days or longer) follow-up examination.

Preoperative Evaluation

History: Positive or Negative Findings

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	1. Reason for visit/chief complaint
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	2. Ocular history/symptoms
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	3. Systemic disorders
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	4. Current ocular medications
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	5. Systemic medications
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	6. Drug reactions/allergies
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	7. Assessment of physical and mental capacity to undergo surgery

Examination and Diagnostic Procedures

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	8. Visual acuity
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	9. Ocular surface (conjunctiva, conjunctivochalasis, cornea, symblepharon)
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	10. Lower eyelid position - ectropion or entropion
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	11. Element(s) of pathoanatomy
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	12. Eyelid margin appearance (e.g. blepharitis, aberrant lashes, keratinization, lid imbrication)
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	13. Position of prosthesis, if present
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	14. Anterior lamella texture
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	15. Posterior lamella status
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	16. Slit-lamp examination

Assessment

<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	17. Current diagnosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	18. Indication(s) for surgery
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	19. Description of surgical plan and anesthetic options
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	20. Informed consent process

Surgical Intervention

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	1. Preoperative and postoperative clinical status

<input type="radio"/>	<input type="radio"/>		2. Detailed summary of operation
<input type="radio"/>	<input type="radio"/>		3. Description of eyelid malposition
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	4. Description of ancillary procedures

Postoperative Care			
Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>		1. Operative notes completed within 24 hours after operation
<input type="radio"/>	<input type="radio"/>		2. Patient assessment of functional status
Short-Term Follow-Up (within 1-2 weeks of surgery)			
<input type="radio"/>	<input type="radio"/>		3. Subjective comments
<input type="radio"/>	<input type="radio"/>		4. Postoperative best-corrected visual acuity
<input type="radio"/>	<input type="radio"/>		5. Lower eyelid position and symmetry
<input type="radio"/>	<input type="radio"/>		6. Wound status
<input type="radio"/>	<input type="radio"/>		7. Eyelid closure or lagophthalmos
<input type="radio"/>	<input type="radio"/>		8. Ocular surface (conjunctiva, cornea)
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	9. Specific complications
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	10. Remedies for complications
Longer-Term Follow-Up (within or beyond 90 days of surgery)			
<input type="radio"/>	<input type="radio"/>		11. Subjective comments (improvement in symptoms noted in chief complaint)
<input type="radio"/>	<input type="radio"/>		12. Postoperative best-corrected visual acuity
<input type="radio"/>	<input type="radio"/>		13. Slit-lamp examination
<input type="radio"/>	<input type="radio"/>		14. Lower eyelid position and symmetry
<input type="radio"/>	<input type="radio"/>		15. Eyelid closure or lagophthalmos
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	16. Postoperative complications/adverse events
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	17. Remedies for complications
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	18. Re-operation performed

Safety and Environment			
Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>		1. Universal protocol
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	2. Reporting of any adverse events
