

# American Board of Ophthalmology Office Record Review Module

## Diagnosis/Case: Ophthalmic Pathologist: Basal Cell Carcinoma

**Module Definition:** A specimen with pathologic diagnosis of basal cell carcinoma processed and diagnosed by you in the past 18 months.

### History (Positive or Negative Findings)

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>		1. Patient's full name
<input type="radio"/>	<input type="radio"/>		2. Patient's birth date
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	3. Patient's medical record number
<input type="radio"/>	<input type="radio"/>		4. Accession number
<input type="radio"/>	<input type="radio"/>		5. Date of surgery
<input type="radio"/>	<input type="radio"/>		6. Preoperative diagnosis
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	7. Pertinent medical history
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	8. Pertinent results of eye exam

### Examination and Diagnostic Procedures

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>		1. Type of tissue
<input type="radio"/>	<input type="radio"/>		2. Specimen label matches identification on request sheet
<input type="radio"/>	<input type="radio"/>		3. Fixative type
<input type="radio"/>	<input type="radio"/>		4. Specimen size
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	5. Specimen color
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	6. Sutures or other markers noted
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	7. Tissue margins inked or colored
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	8. Number of tissue cassettes submitted with accurate labeling recorded in gross description

### Assessment and Management

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	1. Tissue stain(s) other than H & E (hematoxylin-eosin)
<input type="radio"/>	<input type="radio"/>		2. Tissue type or cellular components
<input type="radio"/>	<input type="radio"/>		3. Involvement of surgical margins by tumor noted
<input type="radio"/>	<input type="radio"/>		4. Tumor type, including basosquamous, nodular, and morpheaform
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	5. Additional stains obtained

### Communication and Follow-Up

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	1. Previous pathology reports/slides reviewed
<input type="radio"/>	<input type="radio"/>		2. Appropriate physician notified by phone, electronic communication or mail, with date
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	3. Report signed within four business days of receipt of the specimen in the laboratory
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	4. Missing history obtained
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	5. Further intervention recommended
<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	6. Blocks/slides sent for consultation

### Safety and Environment

Recorded	Not Recorded	Not Applicable	Item
<input type="radio"/>	<input type="radio"/>		1. Gross processing with good ventilation (or hood) to minimize exposure to fixatives
